THURSDAY, April 16-6 P. M. The semi-panic in the stock market which began esday morning made further progress to-day, and the utter demoralization of the cliques which have for some time past been its sole support is evitly near at hand. These unscrupulous combina to win money from the public by promoting tal fluctuations will be effectually broken up, a further heavy decline in prices will bring latter nearer to their legitimate value. There a margin for a fall of from ten to per cent in nearly all the speculative railway es before reaching the point at which their real might be fixed. Moreover, the railway system this country is rotten, and railway property under te present management is about to pass through the ordeal that it did in England and France after the reaction from the inflation indirectly produced by the war in this country set in, and ultimately raily even below their real value. Then stors will come in and buy them up, reforms in railway management will be the result. These reforms will not only lead to an appreciation of the value of this class of securities, crease the safety of travel by causing the lines o be kept in better condition. Reforms in railway management are needed, but until they are an complished fact railway property must suffer, ray stocks at an artificial height, never warranted material considerations, has been pricked. The igh prices at which the speculative stocks have ng were all the more remarkable when we onsider that some of them have been watered from hundred per cent downwards within a reperiod, Hudson River and Rock Island g notable instances in point, while among miscellaneous shares Pacific Mail is a conous example. If we include express shares here are thirty-five millions more speculative stocks Wall street to-day than there were a year ago, and the same time there is much less currency to carry them with. The "watering" system has unmined the prosperity of all the companies that have resorted to it, and they have created burdens which will hang about them like millstones. England experienced prior to and during the panic of 1866 as regards speculative stocks we are about to experience in aps a modified, but possibly an equal degree, nd it will be well if all those who have loaned largeby upon them succeeded in escaping the fate of Overed, Gurney & Co. in London and the Crédit Mobilier in France. The storm has not yet burst, but it is fast brewing, and the wise will take in sail without Airther warning. There need be no apprehensions, however, with regard to government and other sound interest bearing securities, for these will remain firm throughout, and capital will flow into them all the more because of the distrust of speculative stocks.

the fluctuations were from 138 to 138%, with the losing transactions at 138 4. Loans were made at varying from 7 to 11 per cent per annum and 1-32 a 1-16 per cent per diem for carrying. The gross clearings amounted to \$46,193,000, the gold ances to \$1,437,592 and the currency balances to \$2,074,332. The high rates paid for carrying gold reected the stringency in the loan market, which used % a % per cent commission for money to be aid in some instances, it being almost impossible to rrow at the legal rate of interest. In some instances brokers were unable to make up their bank ecounts, although just before the close there was a terial abatement of the previous pressure, owing to the disbursements of the Sub-Treasury in the purchase of seven-thirty notes. The natural activity of market is aggravated by the cautious policy of the banks in declining to lend on most of the nondividend paying railway shares; and considering cir present expanded condition on stock loans this course is dictated by prudence and a proper regard for the safety of depositors. There is no difficulty in rowing on governments and other stocks unquestioned value which are not selling prices above it, and the distrust of the inflated speculative shares leaves more money for employment upon the former. The real ck loans is not known to the public and not geneally even to the directors. The duty of the latter is, ver, to make themselves clearly informed upon Il matters connected therewith, and to personally spect the securities under hypothecation. These are almost invariably enclosed in envelopes on which the contents are described; but who knows thether in every case the latter cor-espond with the description? The bank officers erned have the power to permit the borrowers set of collaterals to exchange them for another-to allow, for instance, the substitution of Erie for Illinois Central-and otherwise oblige their ds, without any official notification of the fact being made. Of course such conduct would be a gross abuse of trust, and there are not a few bank presidents and cashiers who would not in any way countenance anything of the kind; but it is doubtful whether they are all equally honest and honorable, and we therefore think it well to make this sugges tion, as it equally concerns the public and the banks, and it is a matter of no small importance at the

present critical time.

Government securities have been firm all day, notwithstanding the steady and rapid decline of prices on the Stock Exchange, and in the afternoon they experienced a fractional advance, the demand for vestment having been largely quickened by the seeling of distrust which prevails with regard to the speculative railway, steamship and express stocks. The Sub-Treasury bought more than half a million of seven-thirty notes from the principal dealers at 100, and there were afterwards sales at an eighth above this price. At the close the market was firm at the subjoined quotations:—Regis-\$ered, 1881, 112 a 112%; coupon, 1881, 112 a 112%; \$-20's, registered, 1862, 104 a 104%; 5-20's, coupon, \$802, 110% a 111; do., 1864, 109 a 109%; do., 1865, 200% a 100%; do., 1865, January and July, 107% a 307%; do., 1867, 107% a 108; 10-40's, registered, 101% a 101%; 10-40's, coupon, 101% a 101%; June 7.30's, 106 a 106%; July 7.30's, 106 a 106%; May compounds, 1864, 118%; August do., 117%; Sepember do., 117; October do., 1161/4.

At the commencement of business the stock mar-bet was weak and excited, and the pressure to sell noticeable earlier in the week was intensified. At the early session of the open board a semi-panic pre-vailed and Erie sold at 66% a 66%; New York Central, 111% a 112%; Hudson River, 123 a 124, and Rock Bland, 84%. At the first regular board prices continued to decline and the pressure to sell "long" stock was unabated, while New York Central was the weakest stock on the list. New York Central closed 4% lower than at the same time yesterday, Erie 1%, preferred 1, Hudson River 34, Reading 34, Michigan Southern %, Cleveland and Pittsburg 2, Cleveland and Toledo 3, Rock Island 1%, Northwestern preferred 2%, Fort Wayne %, Milwaukee and St. Paul %, Ohio and Mississippi % and Western Union Telegraph %. Government securities were dull but steady. After the call New York Central sold at 110% and Eric at 65%. At the open board at one o'clock New York Central sold at 110 a 110%, Eric 66% a 66% and Rock Island 85 a 85%. At the second negular board there was a sharp raily, and new York Central closed % higher than at the first pegular board, Erie 1, Cleveland and Pittsburg 14, eveland and Toledo 1%, Rock Island 2, Northwest ern preferred 1, Fort Wayne 1/4, Milwaukee and St. Paul preferred 1, Ohio and Mississippi 1/4, Pacific 14, and Western Union Telegraph 14, Reading was 14 lower and Michigan Southern 14. Government securities were firm at an advance of 1/4. The express shares were strong. At the open board at half-past three the market began to react downward, and Eric declined to 66%, New York Central to 111% and Rock Island to 86% Afferwards the market continued to decline, and at the close, soon after six o'clock, it was weak, at the lowing quotations, the tendency still being towards much lower prices for the speculative shares:—New York Central, 110% a 110%; Eric, 65% a 65%; Reading, 86% a 86%; Michigan Southern, 80% a 84%; Dieveland and Pittsburg, 82%; Cleveland and Toledo, 8 a 99; Rock Island, 85% a 86; Northwestern, 60; 8% a 88%; Western Union Telegraph, 35 a 35%; Port Wayne, 99% a 99%.

The foreign exchar

and at the close bankers' bills on England at sixty days were quoted at 100%; at three days, 110%; com-mercial bills, 100%; bills on Paris at sixty days, 5.13%

The receipts for customs and the receipts, pay-ments and balances in the Sub-Treasury in this city for the expired portion of the week have been as

Whiskey.—Receipts, none. The market was inactive and prices were nominal.

BROOKLYN INTELLIGENCE.

INCREASED POSTAL FACILITIES BETWEEN WILLIAMS BURG AND NEW YORK CITY.—Postmaster Darbee, of Williamsburg, has been authorized by the depart-ment at Washington to advertise for proposals for two additional mails on week days and one on Sun-days between his office and the New York office. EFFECTS OF THE THUNDER STORM.—During the

terrific thunder storm which came up so suddenly yesterday morning, a current of electricity struck the chimney of Nishwitz's foundry, First street, near South Fourth, Eastern District, and destroyed over thirty feet of it. The fluid then descended to the engine room, and acted so fantastically that the engineer in charge deemed it prudent to retreat precipitately. CHRIST CHURCH FAIR AND FESTIVAL .- The fair and festival of the ladies of this church, at Washington Hall, Eastern District, in aid of the Rectory fund, has been numerously attended during the past two days,

and, in consequence of the storm yesterday preventing the attendance of many friends, will be continued this afternoon and evening. The display of articles on sale is very fine, and the supply of refreshments ample and of the best quality. In the evening the church choir will sing several choice selections of music.

FATAL ACCIDENT AT THE NAVY YARD .- Coroner Smith held an inquest yesterday afternoon over the body of Hall Sherman, a carpenter, residing in North Oxford street, who was instantly killed at the Navy Yard yesterday morning. The deceased was at work on a hydraulic pump on board the ship Colorado, lying in the dry dock. In some manner he lost his hold and fell to the bottom of the dock, by which he was instantly killed. A verdict of acci-dental death was rendered.

WESTCHESTER INTELLIGENCE.

ANOTHER RAILROAD ACCIDENT .- On Wednesday evening, while a man of the name of John Dagnan was walking along the track he was run over by the five P. M. Port Morris train of the Hariem Railroad. The deceased when observed by the engineer was walking towards the engine and attempted to get off, but his foot slipping, he fell and one of his legs was nearly severed from the body and his head badly lacerated. The deceased lingered without recovering his consciousness until eight o'clock last night, when he expired apparently in great agony. The Coroner, Czar Robinson, held an inquest yesterday afternoon, when a verdict was rendered that the deceased had come by his death as stated above, and the jury censured the Hariem Railroad Company on account of the engineer not putting on the brakes sooner, and from the fact that no conductor was attached to the train.

MARRIAGES AND DEATHS.

Married.

ALBITES—GAZZANIGA.—At St. Anne's church, on Monday, April 13, by Rev. Father Preston, Lucien Albites to Marietta Gazzaniga.
